

WHERE DOES IT GO?

Domtar's products make life better every day for millions of people worldwide. Here are just a few examples.

1. CANADA: You can find Domtar copy paper next to office printers and on shelves in office supply stores.

7. ENGLAND: Grocery stores and butcher shops use black and peach market paper to keep meats fresh and looking good while on display.

2. U.S.: People young and old enjoy a good page-turner; many titles found in bookstores and online are printed on Domtar paper.

8. GERMANY: Pull-ons offer extra absorbency, while maintaining discretion, for active adults.

3. U.S.: Our Comfees® premium diapers and youth pants - available through healthcare providers - are designed to help children with special needs.

9. INDIA: EAM's high-performance absorbent cores are found in the world's top brands of absorbent products, including feminine hygiene.

4. BRAZIL: Specialty abrasive paper is used to make sandpaper that's sold all over the world.

10. CHINA: Specialty paper is combined with other fibers to make water repellant, breathable hospital gowns worn by medical professionals.

5. SENEGAL: Absorbent under pads protect beds, chairs and wheelchairs from urine leakage. They also help keep skin dry and guard against odors.

11. INDONESIA: Fiber cement, which is used around the world in construction and homebuilding applications like home siding, is made using specialty grade pulp.

6. SPAIN: Designed for light incontinence, our bladder control pads help women live fuller lives.

12. NEW ZEALAND: Adult briefs (also known as slips) provide dignity to seniors in assisted living
